

About:

I am Pravallika, currently pursuing my B.Tech in computer science and engineering with the CGPA of 8.5. I am skilled in C programming, Python and Java. With a strong interest in project development, my focus lies in enhancing the front-end experience. Eager to contribute my skills in building projects that prioritize intuitive and visually appealing user interfaces.

Project and internships:

I have completed my internship on advanced data science. The 3-month data science internship provided hands-on experience in applying statistical analysis and machine learning techniques to real-world datasets. I have also collaborated on projects, honed programming skills, and gained insights into data visualization. Throughout the internship, I have enhanced proficiency in languages like Python and R.

My objective:

I am very Enthusiastic about expanding my skill set, I'm eager to delve into new technologies and collaborate with mentors to craft innovative projects. I'm Passionate about staying at the forefront of technological advancements, I am actively seeking mentorship opportunities to deepen my understanding and apply my knowledge in hands-on projects. As I am Eager to embrace emerging technologies, I believe mentorship is key to honing practical skills and achieving impactful results in the ever-evolving tech landscape.
